Complaints process flow:

4.1.1 CAPTURING THE COMPLAINT IN THE COMPLAINTS REGISTER

4.1.1.1 The administrator captures the Received Date, a brief description of the complaint and then assigns the complaint to the relevant customer in the database. Finally, the complaint is allocated one of the following Complaint Types in order to categorise the complaint:

Complaint Type	Description
Website issue	I encountered an error while navigating the website..
Call centre service	I received poor service from one of the share dealers telephonically.
Walk-in centre service	I received poor service from one of the share dealers at the walk-in centre.
Documentation issue	I have submitted the required documentation but I have not received satisfactory feedback.
Funds deposit issue	I deposited money into the trading account but I have not received notification that it was allocated to my trading account.
General complaint	Any complaints that are not covered by the options above.
Payment issue	I requested funds to be paid into personal bank account but I did not receive my funds within 5 working days.
Trade issue	I submitted a sell offer or buy bid but I have not received feedback regarding the status of the trade.
FAIS	FAIS complaint

Due to the number of complaints that should be categorised as queries, the complaints register has catered for a query category. These queries are allocated to support staff to attend to.

4.1.1.2 Complaints will be categorised further as follows;

- complaints relating to the design of a financial product, financial service or related service, including the fees, premiums or other charges related to that financial product or financial service;
- complaints relating to information provided to clients;
- complaints relating to advice;
- complaints relating to financial product or financial service performance;
- complaints relating to a service to clients, including complaints relating to premium or investment contribution collection or lapsing of a financial product;
- complaints relating to financial product accessibility, changes or switches, including complaints relating to redemptions of investments;
- complaints relating to complaints handling;
- complaints relating to Insurance risk claims, including non-payment of claims; and
- other complaints.

4.1.1.3 The administrator will then save the complaint in the register. On click of the 'Save' button the system will populate the 'Captured Date' with the current date and the 'Captured By' field with the username of the administrator. The system will also insert a complaint note indicating that the customer has been sent and acknowledgement of receipt and will also insert an 'Expected Resolution Date' that is exactly 48 hours after the Captured Date and Time. The system will then automatically generate and send the following email to the customer:

4.1.2. INVESTIGATION OF THE COMPLAINT

Any actions taken during the course of the investigation will be captured as a note in the complaints register by the client liaison officer team and the necessary supporting documentation (if any) attached to the record. The 'Expected Resolution Date' can never be more than 5 working days (1 week) from the last 'Expected Resolution Date' of the complaint and the system monitors the turnaround time.

4.1.2.1 Immediate resolution

If the administrator ascertains that the issue can be resolved immediately (i.e. within 48 hours) then they will take the necessary action, record the steps taken and attach any supporting documentation (if any). The system will automatically generate a draft email pre-populated with the contents of the contents of the note that the administrator captured previously. The administrator will then edit the draft email and include any additional information before sending it to the customer. The administrator will then click on the 'Close' indicator. On click of the 'Save' button the system will automatically populate the 'Closed Date' field with the current date.

4.2 GIT complaints

Customers can submit complaints to the manager of the GIT, SFS. Reportable complaints received will be recorded in the complaint register as FAIS complaints and will be categorised as per section 4.1.1.2 above.

- Acknowledge receipt of the complaint in writing, immediately within 5 days, and give the client the name(s) and contact details of the staff responsible for the resolution of the complaint.
